**SUBJECT: Letter of Commendation
Saybr Contractors, Inc. Website Development**

Dear Vaughan:

This letter is written to commend your company's exemplary service in providing Saybr Contractors, Inc. with the development and implementation of our new website and the ability, through your VSM software, to continuously modify our site's content. Your company truly provides an efficient and novel approach to website development and maintenance – *the* best option for companies looking to create or modify their website in conjunction with a professional website developer and maintain 100 percent control of its content.

From our initial meeting with Efinity to the delivery of our site only a few short weeks later, your company has been extremely responsive; we were kept apprised of the site's key stages of development, were provided with appropriate review periods, and, upon delivery, received a product that fulfilled our vision of a professional, creative, and user-friendly website. Furthermore, your VSM software allows us to quickly and easily make changes as needed and resolves any difficulties over content ownership.

We fully recommend Efinity and its effective team to any company looking for a customer-based solution to creating and maintaining its website.

Sincerely,

SAYBR CONTRACTORS, INC.

A handwritten signature in blue ink that reads "A Grindle".
