Vaughn, Mark, and all who helped with our website:

Well everyone was against me wanting to have our website redone. But I whined a lot and they finally gave in. It was one of the best things we have done in a long time. Our sales have gone up 800%. Your company did a wonderful job on our website and I just wanted to thank you. Working with your company has been at the least interesting. But I have met some really wonderful people. And I wanted to say thank you, you guys are great!!!!!!!!!!
